

FIBRE OPTIC ASSEMBLIES

MPO SOLUTIONS

MPO CLEANER

The MPO cleaner is a high-performance device designed for cleaning the ferrule endfaces of MPO connectors. This tool cleans the fibre endface without the use of alcohol, cleaning all 12 fibres at once.

Features

- ▶ Intermateability with FOCIS-5 (MPO)
- ▶ Capable of cleaning MPO ferrules inside or outside an MPO adapter.
- ▶ Capable of cleaning ferrules with or without guide pins
- ▶ 500 cleanings

Connector inside adaptors

Connector plugs alone (utilizing guide cap)
