

# FIBRE OPTIC ASSEMBLIES

## PIGTAILS

### MULTIMODE PIGTAILS

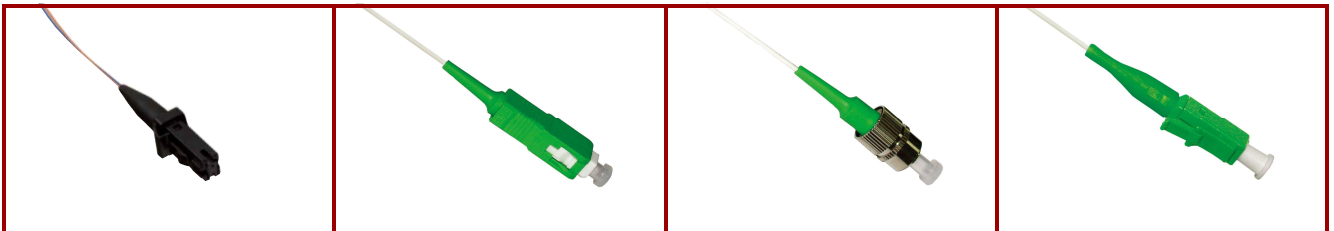

ST Multimode Pigtail

SC Multimode Pigtail

FC Multimode Pigtail

LC Multimode Pigtail

MTRJ Multimode Pigtail

SC/APC Multimode Pigtail

FC/APC Multimode Pigtail

LC/APC Multimode Pigtail

Optical fiber pigtails are essential when terminating cables within the splice enclosure. Purchasing pre polished assemblies takes the risk of poor connector termination away from the project. Cables terminated within a production facility will give a higher performance than cables terminated on site.

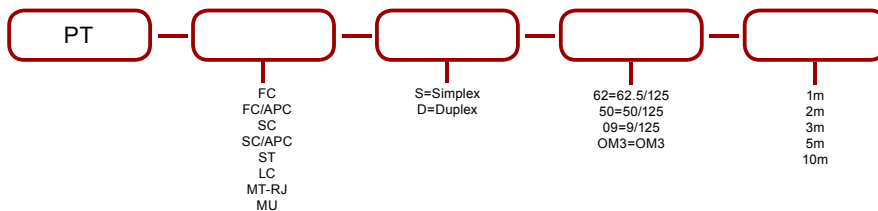

The SofeTEK range of optical fiber pigtails has grown through the years, from every day standard versions to special products to meet your needs. From industry standard 62.5/125 multimode to 9/125 Singlemode right the way up to state of the art OM3 50/125 cable assemblies, SofeTEK can supply them all. With a SofeTEK cable assembly you can be confident you are using the best in cable, connectors and manufacturing.

#### Features

- Multimode & Singlemode applications ST/SC/FC/LC/E2000/MU Connector types
- Ultra polish & Angle polish options available all terminations are manufactured to exceed performance parameters set by industry standards
- Fast turn around of non-standard requirements
- Full tracability & test certification supplied with each assembly

### ORDERING INFORMATION

To order optical fiber assemblies the SofeTEK part number follows the following sequence.

- ① Other connectors available on request.
- ② MT-RJ is only available in MiniZip.
- ③ Other lengths available on request.
